COUNCIL ON GLOBAL MISSION AND TRANSNATIONAL RELATIONS

Political Gospel Letter from the United Nations and Religions, World Organization
to the outgoing American Administration, listed in the register
of the General Secretariat under prototype
N°370 /CAB/SG/NRU of November 12, 2024

OPENING EXERGUE

“TRANSDIPLOMATIC INQUISITION AGAINST ALL POLITICAL VELLEITIES
AND HUMILIATIONS TENDING TO HARM THE HONOR OF THE UNITED NATIONS
AND RELIGIONS, WORLD ORGANIZATION AND AGAINST ALL ABUSES TO
GUARANTEED WORLD PEACE, TO PHYSICAL AND BIOLOGICAL HUMANITY AS
WELL AS TO THE POPULATIONS WHO 'LIVE’”.

MODE OF TRANSMISSION: OFFICIAL ROUTE

KUALA LUMPUR on, November 12,2024

To Mr. President of the United States
of America Joe Biden Head of the
White House from and to
Washington D.C.

Mister President,
“To you, all our most altruistic transdiplomatic civilities and through you all the blissful
felicities of the United Nations and Religions, World Organization to the noble
American Nation and the valiant People who compose it.”

May far from you and your Administration be the incomprehension, the ignorance and the excess of political pride which blinds, to minimize the content of this letter Gospel of undeniable transnational scope, which recalls the generosity of your authority legally recognized to the ends of the world and the altruism of your Administration not to forget that the 21st century is the century of alternative transition of passage of the world Underworld of barbaric, pariah and rogue States which do not respect transnational laws the most essential, considered a threat to world peace, to the Post World of countries, territories of civilized Nations and the regrouping of human communities with structures around the world in a large planetary entity called, United Nations and Religions, World Organization, created politically by a Public Act of internal law, or Universal Social Contract, to the model of a World Federation of global integration, prefiguration of the embryo of a transnational Res-publica of universal citizenship and Archetype of a New World Cosmopolitical Order founded on participatory cosmocracy or populocracy and on the right of extraterritoriality of laws which give people powers for self-determination and self-determination on a global scale.

Respectful President in the great Universal Human Family and dear brother in the unity of the human race and the spiritually animated coagulated blood.

Seen and in accordance with the official response reserved to our letter N° 132/DP/CAPEPG of October 29, 2024, you address by the Department of the Council of Public, Extraordinary, Political and Geostrategic Affairs, responsible for electoral matters, under vidimus of the Secretary General of the United Nations and Religions, World Organization on a working mission around the world, relating to the Organization's warning of possible incidents in all their forms, which could occur during and after the election presidential election which took place on the territory of your respective country, and in which Donald Trump won by a majority despite the vicissitudes, assassination attacks, accusations and trials in his person.

After examination, study, analysis and careful reflection on the ethical trait, which corresponds to political ethics and moral values, which regulate all epistolary relations between Organizations and States of countries and territories of the world.

Considering, however, that the time to live in transdiplomatic clandestinity, in political anonymity which no longer offers any meaning, and reserving, however, the right not to remain silent in the face of retrograde and arrogant behavior which violates established norms by the civilized Nations of planet Earth, in the world common space of complementarity for many which remain to be done together, and which we were able to see through the sentences used in the leaflet message reserved for us in terms of response by your Administration.

United Nations and Religions, World Organization, concerned with non-respect of its extraterritorial personality which gives it public and popular notoriety in the world, of its supranational universal sovereignty powerfully protected by the cosmopolitical right of extraterritoriality of laws and that no State of a Member Nation has neither the right nor the privilege to abusively violate by its arrogance or the excess of the political powers that it occupies in the world.

Has, the greatest regret to present to you through the transdiplomatic channel its deepest indignation regarding the denigrating nature of the leaflet message from your administration, reserved for the Organization in terms of response to its letter, a leaflet message devoid of any political ethics, the name of the sender, the reference number nor even less the initial of the political authority which legalized it, but written in a style of acerbic pride veiled and disrespectful of others, offensive and humiliating by its unfortunate expression, in particular by the word used in its content “**audacity**” whose meaning is pejorative, in other words in precise terms, which proudly denotes the depreciation and even denigration of the greatness of the Organization which wrote to you.

In doing so, United Nations and Religions, World Organization reserves the most legitimate right not to respond favorably to your request in leaflet format, since it has written to you officially in compliance with the standard norms used in the world in this matter transnational epistolary relations and that in turn you responded to him in the tract format written in an arrogant and despotic style.

This attitude towards us, denotes on your part, the ignorance calling as quickly as possible to be filled in this 21st century where physical and biological Humanity is in constant evolution.

However, castigating this ignominious and derogatory posture towards us, failing to ignore your interlocutor that we are, this sufficiently proves to the face of the world the lightness and lack of respect with which you have treated us as a great Organization supranational category A/ of the 21st century.

It would have been much wiser and more appropriate on your part to find in Us, a curiosity which would bring added value to your age-old knowledge, however, you preferred to get confused in your hasty judgment, in your excessive pride. , as well as in your claim to omniscience thereby veiling and hiding your bad habits of wanting to minimize others and all those who say the opposite to your narcissistic logic which insults the universal human consciousness.

Moreover, since no one has a monopoly on knowledge and knowledge, we are seizing this opportunity offered to us, to introduce you to this great odyssey of knowledge of the United Nations and Religions, a World Organization which has not similar in the world to the confines of the inhabited universe.

Know it and take it as obvious and without you being able to ignore it that the United Nations and Religions, World Organization is not as you think, one of the international Associations of the States of the International Community baptized on the old altar of power politics, and nourished in the seraglio of diplomacy of national interests and the passions which result from them and which consider Peace and international relations in terms of powers.

But, it is a global meta-geopolitical ideal which describes a politically defined universe in which henceforth, the center of planetary political decision-making powers lies in the

sovereign and discretionary guidance of the world's peoples, with legitimate effect of their rights to self-determination and to dispose of themselves on a global scale.

It is a power with supranational and extraterritorial competence, having exceptional prerogatives of esteem, legally recognized throughout the world to exercise as a counterbalance a preponderant influence in a plural world, lying on the edge of fatal collapse and all that which affects the lives of the human beings who inhabit it.

In doing so, in accordance with the mandate of popular subrogation of the sovereign peoples of the globe resulting from universal plebiscite of popular jury entrusted to the United Nations and Religions, World Organization, the latter has the right to express its opinions and considerations in all political areas which concern planet earth, to reframe and monitor all areas of human life and the universal common good.

To this end, we were allowed, in full transdiplomatic responsibility, to have a political perspective on the progress of the electoral campaign and to give our point of view on the outcome of the presidential election itself, which took place in America your country territory, against a backdrop of insults and assassination attempts, exacerbating tensions during the electoral campaign of the presidential candidates and which was going to risk making us relive the repeated assault on the Capitol following the contested results of the presidential election which would be poorly organized.

Very unfortunately, we have noted that you continue to shine with political arrogance and drunken excess pride in state power by believing that it is only you who can unduly have the right to control elections across the countries and territories of the world, while in this 21st century, this time is over and therefore, nothing that is happening in the world and on its planetary territory cannot escape the control of the United Nations and Religions, World Organization.

Mister President and esteemed brother in the great Universal Human Family.

This letter, a political Gospel of global significance, does not denote the hostile attitude that we have towards you as the American President whom we highly esteem, nor our animosity towards your outgoing Administration, even less an absurd offense to the noble American Nation and an outrageous denigration to the valiant sovereign American people, members of the Organization with so many others from planet earth.

But it is, the right of response of the United Nations and Religions, World Organization to your response leaflet and through you to all those who in the future, alone or collectively would discredit or harm the honor of the Organization, to its supranational institutions and its leaders.

Hoping that this Gospel letter will be the subject of questioning to your administration and to anyone who wishes to question the sovereignty and honor of the United Nations and Religions, World Organization.

Please believe Mister President in the expression of our perfect consideration.
