United States of America

Mister President,

In the name of the Clement and Merciful God that Nations, Religions and Race invoke by attributing to Him various names and attributes and, by the ineffable judgment of the World Community of the great Universal Human Family.

Your brilliant election to the supreme office of your country territory, offers me the pleasant opportunity to send you my warm and hearty congratulations, to which I take this solemn opportunity to add the blissful congratulations of the

United Nations and Religions, World Organization to the noble American Nation and the valiant People who compose it, who are consecutively founding members and effective members like so many others of the United Nations and Religions, World Organization.

Mister President,

Fully measuring and with extensive knowledge, the extent of the challenges that you must face and, willingly wishing you my very sincere and full success in your new functions, resulting from the perilous elections which were the object of transnational curiosity of citizens assets of the general global public and for which you narrowly won and at the risk of your life, which clearly proves that you were destined by God to wash in the face of the world the image of your country America that you come to inherit weakened politically, militarily and diplomatically in the concert of States of the international community.

Isolated in the world because of its total support for the criminal and genocidal Zionist State of Israel and for Ukraine where billions of American taxpayer dollars are unduly spent in a war that does not concern them and, is today economically vulnerable due to the future decadence of the extraterritorial privileges of the dollar currency that your country had given itself in the world.

In doing so, knowing well your political abilities as an altruistic statesman and the determination within you to want to eradicate all the endogenous and exogenous causes that America, your country territory has accumulated during the four years of the reign of the outgoing Administration who was much more interested in private interests than in those of the priority American people and above all America.

I will be happy and very satisfied to see your administration and yourself, for the honor of your founding member Nation and your effective member People among many others of the inhabited terrestrial planet, willingly integrate the United Nations and Religions, Organization Global within the framework of the still unfinished political, legal, religious, economic and cultural project of the rehabilitation of physical and biological Humanity in its initial values, of the reconstruction of guaranteed world peace, of universal collective civil Security, of Justice immanent and humanist for all, of lifelong universal solidarity between the peoples of the inhabited universe who ignore each other because of their affiliations and of the Globalization of collective action for the purposes of pooling our global efforts for the universal common good of planet earth.

By expressing these wishes for yourself and for the entire American people and hoping that they will meet with your most altruistic assent.

Please accept, Mister President, the friendly expression of my high consideration.
