DECLARATION OF PUBLIC AND POPULAR NOTORIE OF DISAGNOSMENT, DISAPPROVAL AND INDIGNATION OF THE UNITED NATIONS AND RELIGIONS, WORLD ORGANIZATION

GENERAL COMMISSION FOR MORAL, SPIRITUAL REARMAMENT AND CITIZEN RESPONSIBILITY

Ipsa Jure process, in accordance with the great designs of the 3rd millennium of the United Nations and Religions, World Organization dedicated to physical and biological Humanity below we cite!

“Let us spiritualize the political, let us politicize the spiritual and globalize global popular collective action, to cosmopolitanize planet earth and integrate the populations of the globe into a great Universal Human Family.”

PRELIMINARY STIPULATIONS

Recalling the ineffability of the religious history of Christian France with Joan of Arc known as Pucelle, born around 1412 and died at the stake on May 30, 1431, as a heroine of the Christian history of France, war leader and one of two patron saints of France, who justified her action in the Hundred Years' War, by voices and apparitions which invited her to drive the English out of France, and to help Charles VII

to recover his throne, and who often said as a sentence: That the two wings of the French Soul that no gust of wind can break are love and the Christian faith and as a motto God first served.

Whereas the United Nations and Religions, World Organization has as a member among many others, the Religion not to make it a sort of world Religion where we would agree together on the same doctrine and the same rite of concelebration, but rather because Religion is the most perfect instrument for establishing order in the world and for the tranquility of all human beings. The weakening of the pillars of Religion encourages the ignorant to unbelief, making them more daring and aggressive, and lowering the high value of Religion would promote recklessness in the world among the wicked correspondents of irreligion.

Recalling that in the history of the world Community of the great Universal Human Family and of the sedentary populations of the globe in search of the right to have the rights which compose it, that there are in the world, the most wars bloody than those of religions commonly called “clash of civilizations”.

Recalling that it is, however, undeniable that numerous violent conflicts throughout the history of the centuries have always been motivated by ostensibly religious factors, something to be avoided in this 21st century, for fear of provoking the clash of civilization which will overwhelm the Entire physical and biological humanity in a

generalized conflagration, globally unmanageable and whose consequences will be harmful, disastrous and disastrous.

Deploring, however, that in the tumult of the afternoon of the day of sad memory of July 28, 2024, the darkest eventful day in the history of physical and biological Humanity in general and of plural and secular France in particular, billions of human beings viewers who populate the inhabited terrestrial space, exposed live followed the simulacrum of the blasphemous, provocative, defamatory and big shit à la Macronie Olympic Games, that is to say the insulting mockery and offense to the divinity of Jesus Christ, humiliating and hurtful ironies to the Christian Religion and its billions of faithful spread across the various confessional denominations throughout the world.

In the excitement of the sad ceremony of shameless humiliation, knowingly organized and planned with and by the French government in violation of two major principles of French law, which are freedom of expression and respect for the beliefs of others contempt for all the universal moral norms that religions have always defended.

From the top of the celestial Throne greatly and sublimely elevated to the altitude of the roof of the entire physical and biological Humanity and that of the universe inhabited by monotheistic and polytheistic believers having God as their goal and as the immeasurably more supreme Being.

United Nations and Religions, World Organization through its Commission for Moral, Spiritual Rearmament and Citizen Responsibility.

Outraged and frustrated following the public offense of July 28, 2024 of the divinity of Jesus Christ massively followed by billions of individuals around the world including most Christians and, in the face of the attack on the honor of the universal Religion revealed as Christian, to the humiliation of its faithful throughout the world and with too harsh an emotional test.

Taking up the cause against any blasphemy and any denigration of the religions of others, against any red bleeding of the faith of others and against any offense wherever it comes from in all its forms and of what nature it may be against the divinity of Jesus Christ and the infallibility of the prophets or manifestations of God, founder of the

great universal and universalist religions of the book insofar as they exist in the world.

Seen and in accordance with the ipso jure procedure of urgency, necessity and authoritativeness to bring to the attention of world public opinion this declaration under Vidimus of the authority of the Secretary General.

Seen and convinced that the content of this declaration is structured in such a way that it is persuasive and calls for joint universal action with immediate effect.

The Council for the Rconciliation of Confessional Denominations and the Unity of Religions heard!

Let us declare and proclaim to the believing people of God on planet earth the following:

Let us present our indignation, our disavowals and our disapprovals to the government of the French Republic and all our clemency with disarming sincerity to those from all over the world who followed live the opening ceremony of the bad taste Olympic Games in Paris on 28 July 2024.

Let us demand that the French President and his government seek sincere forgiveness from the billions of believing Christian and non-Christian viewers around the world who followed live the defamatory and blasphemous ceremony of July 28, 2024, a ceremony which sent chills down our spines. of the entire world Community of the great Universal Human Family, and not to do so because of excessive State pride, personal arrogance or on the grounds of secularism in the

Macronie contrary to secularism that the republic French in fact its hobby horse in the world, will be an insult and an offense knowingly, consciously and skillfully planned against the Christian Religion and a blasphemous nuisance to the moral standards of the universal that it embodies.

This is the opportunity for us to say that the misadventure of France or its government is no different from the policy of the greedy people of the West-Atlantic with regard to the massacres of Palestinians in the Strip Gaza with a believing majority.

By affirming, however, our indignations, disavowals and disapprovals, we have decided before God and before the civilized Nations of planet earth, to release the energy buried deep within our hearts so as not to please any occultist authority that farewell.

Is not becoming spectators of the breach already a crime and a sin in itself?

Why would we agree to passively endure so much shame, humiliation and degradation, from the inhuman and dehumanizing anti-values of the West-Atlantic?

Do we really have to fold our arms in the face of the LGBTQ+ leaders of the West-Atlantic towards the religious sentiment of the four billion Christians and non-Christians in the world?

With all our strength and all our collective being, let us stifle and prevent the development in the world of the identity of the correspondents of immorality and the representatives of the anti-Christ

and anti-religion even if this is imposed by means of our sacrifice supreme and let us not be afraid to be martyrs to the noble cause.

Let us pour the balm of myrrh on our bloody wounds and recognize that the time of deadlock of lack of hope and suffocation in the Underworld of unbelief has come to an end.

Ladies and Gentlemen of the world and people of God

We must wash our tears with the Holy Shroud or Shroud which had enveloped the body of Jesus Christ in the year 33, found in the Holy Sepulcher today soiled by the profane and impure of occult, homosexual and obscenity France scabrous which shocks modesty.

Christians and non-Christians from all countries and territories of the world, you who are grappling with progressive blasphemies, that the domination of apostate unbelievers imposes the Underworld of shameless idolatry.

Be full of vitality and loving martyrdom like the Lord Jesus Christ, who was sacrificed by politicians on the cross of Golgotha.

Be willing to break the front lines of unbelief and decadent irreligious imagination.

Do not stick to the idea of stopping at the present stage, but rather think about freeing yourself from irreligious slavery and therefore flee from occultist servitude, defying the enemies of the religions of God, because nobility and life are found themselves in the shadow of Moral, Spiritual Rearmament and Citizen Responsibility.

The first step of Moral, Spiritual Rearmament and Citizen Responsibility, Universal Revolution of Citizen Emergence, is found in

the will to want to do, then in the firm decision to reject irreligion, unbelief, the serious and the absurd associationism of the West-Atlantic which offends modesty.

Whether you are in any corner of the world and whatever your different racial affiliations, be One as the Lord Jesus Christ teaches you in His holy scriptures, may your hearts and souls be with Him and may your love for Him not be never diminished or weakened.

Always pray with your faces turned towards the Holy Sepulcher and also die with your face turned towards the cross of Golgotha.

Always remain faithful to your pact with the Most High, your Lord Christ the sweet Jesus, foundation of your faith.

Your indignations, disavowals and disapprovals to the apostate leaders of Christianity and renegades of the religions of God, conform to the pattern of the thousands and thousands of martyrs who shed their blood in defense of the Christian faith and belief in their religions of choice and, you have none other than God to support you if you are cut into pieces and broken like clay models, do not give up your struggle and your noble fight.

In this stifling heat of irreligion, organize, in your respective countries, territories and all over the world, peaceful marches in terms of demonstration of your indignation, disavowals and disapprovals so that the harm returns to the iniquitous and apostate superpowers of Christianity, although the authorizations said marches be given by the same renegade leaders of your Christian faith and religious belief.

Dear brothers and sisters in the great Universal Family of God and co-religionists in physical and biological Humanity.

We must convince ourselves that the event of the LGBTQ+ Olympic Games in France opens a way for us to establish and consolidate our links in the oneness of God very High and Great, Clement and Merciful, and to recognize all the prophets or manifestations that God has used as channels to convey his message to the generation of each century, like the branches of a single tree and the waters of the same spring.

Let us prove to the shitty world or the Underworld that we have the strength to endure hunger and thirst, but we never have the strength to endure blasphemy, slander and offenses to the infallible divinity of Lord Jesus Christ and all other prophets or manifestations of God on earth and we will resist until the last of our breath in faith before the most violent attacks of the blasphemous Underworld.

We must deploy all our strength to maintain by any means our faith or belief in God and, as docile believers, let us always have faith in our religions and deploy all our efforts towards the satisfaction of the Most High.

We must in our war of belief and not guns of arms, proceed to the general mobilization of believers and followers of Religions and confessional denominations around the world, around a common universal ideal of spiritualizing the political, politicizing the spiritual and globalizing global popular collective action, to cosmopolitanize planet

earth and integrate us all into the great Universal Human Family where God is first served.

We declare that as long as blasphemy, offenses and associationism exist our struggle will always exist.

The shameful event of the French Olympic Games, which billions of viewers watched live, will not undermine the divine identity of Jesus Christ, his eternity, his sustainability and his immeasurable high rank that he occupies in the hierarchical order of the prophets of the universal religions of the book and in the Holy pantheon of our hearts nor lukewarm our faith or our belief in the revealed Religion of God creator.

Ladies and Gentlemen of Religion Triumphant Revealed

Although this awakening of the human species has its potential moral and spiritual responsibilities, for the post world to reach its maturity of understanding that faith or belief is not a question of blind political dogmas, but of conscious knowledge , and that the guidance of the religious elite of the 21st century, must confer in this new age of illumination in the fountains of our hearts, the capacity to respond to all abominations, blasphemies and defamations which would attempt to discredit in the world the honor of religions.

We are not calling on the world's believers to violence or hatred, but to a state of mind collectively put into action and to a peaceful global trans-religious and extra-denominational surge.

As we explicitly noted during the opening ceremony of the Paris Olympic Games, where the anti-Christ spirit of this world was insistently

imposed on us, while the freedom to believe of the people of God in the world is sees herself exposed little by little to suffocation.

We will never allow anyone, whatever their authority, their political preponderance in the concert of transnational relations, the social or religious rank they occupy in the sphere of world politics, to make fun of the Religion of men, to ape the faith or the belief of billions of men and offend the manifestations of divinity or the prophets that God used as divine messaging channels to transmit his message to his creatures.

We declare the plural and secular world a Buffer Zone, that is to say which separates the two religious and political powers, of which we cannot speak of one without the other and both being at the service of the A man who is faithful to religion and loyal to politics, complement and mutualize each other on the ground which is favorable to them.

We firmly condemn any imposition by the policy of the irreligious, of denigrating atheism, of the imposter unbeliever, of arrogant associationism and erase with the Shroud of Holy Sepulchre, the water of Zam Zam, the sacred veils of Torah and so many others in the hearts of human beings who followed this event of sad memory.

Let us proclaim the victory of the revealed truth over all the faithful of harmful unbelief, the irreligious atheist and occultist who would try by all the means at their disposal to dominate the world and let us all collectively wrest freedom, respect for the saints religions of God in the hands of the unworthy, of the vile apostates and renegades.

So, let us call on the populations of the globe in all their diversity of genders, languages, races, and collectively shared cultures to rise as one

universal and universalist people in global collective action, in order to demonstrate their indignation, disavowal and disapproval through a great global march, because they say the voice of the People is the voice of God, and the organization of this march will be communicated to you soon through the organizing committee which will be created for this, see world site of United Nations and Religions, World Organization.

Let us also call on the peoples of the inhabited universe to the confines of terrestrial space, to speak out massively through their points of view and value judgment on the rejection of these Olympic Games, which have tarnished not only the image mark of Christianity but also that of the noble France of Joan of Arc. A global petition to seek your consent through your signatures will be launched online, see the global website of the United Nations and Religions, World Organization.

Aware of the supreme importance of the task that the whole world must now undertake and call us to bow humbly before the imposing majesty of the divine creator.

Firmly convinced that all human beings were created to promote the progress of Religion, acting as field animals do is unworthy of Man, the virtues specific to human dignity are respect for the religious affiliation of others, loyalty, forbearance, pity, compassion and kindness towards all peoples of the world.

We say, however, that as we write and publish this statement, the hopeful voices of believers of the world's religions resound despite the

persecution and massacres to which they continue to be victims in their respective countries and territories due to their religious affiliations.

Our message today therefore represents more than a vision freely expressed in words, but also an urgent appeal to the evocative power of acts of unwavering faith and sacrifice.

However, we communicate to the world the anguished call for guaranteed world peace and the unity of all co-religionists throughout the world in a unitive planetary whole.

We join with all those throughout the world who are victims of attacks because of their racial and religious affiliations, with all those who aspire to a world without conflict or war, with all those who, through their dedication to the principles of peace and the cosmopolitan world order, are the promoters of the causes which ennoble and for which physical and biological Humanity was created by God in his infinite mercy and love.

However, in our ardent desire to communicate to the whole world the fervor of our hope and the depth of our inestimable confidence that we have for you believing peoples of God, of the respect that we have for all religions as far as they exist in the world and the esteem that we owe to all the prophets of God or founding manifestations of the great universal religions of the book.

“We cry from the roof of the summit of the holy mountain that:

These sterile struggles of evil against good, these irreligious feelings of denigrating the spiritual by irreligious techno apostates in ties,

renegades and murderers eager for immorality. These absurd political and religious wars of interest will pass, the unity of the human race, the communion of religions will be present in our century and the standard of guaranteed world peace will be established in the heart of physical and supreme organic! " .
