

UNITED NATIONS AND RELIGIONS WORLD ORGANIZATION

To all who receive this letter, Hello, Peace and Universal Lifelong Solidarity!

DEPARTMENT OF THE COUNCIL OF EXTRAORDINARY PUBLIC
AFFAIRS, POLITICAL AND GEOPOLITICAL RESPONSIBLE FOR
ELECTORAL ISSUES

Letter of warning to the American Authorities on the ongoing electoral process of
November 5, 2024 listed in the Cabinet register of the General Secretariat
under prototype No. 132 /DP/CAPEPG/ on October 29, 2024

MODE OF TRANSMISSION: OFFICIAL ROUTE

*LOC/
19*

To Mr. President of the United
States of America Joe Biden

Head of the White House from
and to Washington D.C.

Mr President,

By the ineffable judgment of Nations and Religions and by the
general will of the peoples of the inhabited universe.

The Department of the Council of Extraordinary Political and
Geopolitical Public Affairs in charge of electoral matters, by order and
under Vidimus of the Secretary General, presents to your worthy person
its most extraterritorial epistolary courtesies.

The Department of the Extraordinary Public Affairs Council,
political and geopolitical in charge of electoral matters, takes advantage of

the opportunity offered to it to remind your conscience as a politician and of the President of the United States of America, that he was created on May 25.

1997 in the world to the confines of its territorial borders, a world General Organization embryo of a planetary Res Publica and Archetype of a New World Cosmopolitical Order of the Federal type of planetarized world peoples marching towards the unity of the human race and who forge their common destiny collectively shared for the common good for the well-being of physical and biological Humanity.

Whereas the United Nations and Religions, World Organization is the only one in the world which has the classical supranational governing Institutions that have all the interstate Federations by the hundreds that they exist on the terrestrial space and having a global jurisdiction which regulates the electoral conflicts plaguing the countries of the world under its planetary territory.

Noting with bitterness the astonishing and pamphleteering statements of certain members of the ruling Democratic Party who speak of the frightening catastrophe of a post-election crisis which would submerge America in an all-out civil war.

Noting that these astonishing declarations with veiled political makeup, indirectly prepare the national and global conscience for future cheating that the Congress of Observation of Participatory Elections in the World of the United Nations and Religions, World Organization takes seriously, deserves sustained attention of the Department of the Council of Extraordinary Public Affairs, political and geopolitical, large dicastery of the Organization in charge of electoral issues.

Convinced that elections in participatory democracy are not mathematical calculations to know in advance the winner since the latter always remains in the discretionary secrecy of the American People who will be able to decide without being constrained or forced but of their own free will, the when the time comes to the person of their choice.

Consciously aware of the danger to come following the rejection of democratic republican values universally shared throughout the world, the non-respect of the principle of meritocracy, the resentment which

punctuates the American electoral campaign and all the repeated attempts to attack life of the Republican candidate from whom we cite Donald Trump.

Recalling that history tells us that the United States of America is among the oldest democracies in the world when we refer to Abraham Lincoln and Woodrow Wilson who respectively defined democracy as power of the People, by the People and for the People , as well as the right of peoples to self-determination that every people freely enjoys as a legal manifestation of the fullness of its collectively shared sovereignty.

Recalling to the knowledge of American national and world public opinion, that this letter of warning has no political motivation which justifies in one way or another an interference in the affairs which fall within the internal domain of the United States of America, but rather that which falls within our delegative mandate of popular subrogation recognized by the peoples of the world, to warn any individual or group of individuals who would attempt to influence, cheat or substitute themselves to the people when they choose their representatives.

Faced with this worrying explosive situation which calls the whole world for vigilance, for a planetary surge and for the globalization of global collective action in order to prevent future risks for future generations.

Considering the imperative necessity and the pressing urgency to communicate with you on a subject which challenges human consciences.

The World Participatory Election Observation Congress heard now!
The Department of the Council for Extraordinary, Political and Geopolitical Affairs responsible for electoral issues!

On behalf of the peoples of the world personified by the active citizens of the general global public who represent the absolute majority of the population of the globe and under the direction of the Secretary General of the Organization.

Severely warns:

1. The American Administration on the organization of a parody election on November 5, 2024 as well as on all attempts at cheating and electoral fraud;

2. On all warlike rhetoric of hatred, rejection of others and calling for violence in all its forms;

3. On any restriction of public freedoms of speech, points of view, media or social networks on fraud or attempted fraud;

4. On any inflationary words tending to divide the American people or calling for a civil war in the event of failure;

5. On any action of herd instinct tending to kill, eliminate or harm the physical integrity of candidates in the race or their entourage.

Calls for responsibility and a high sense of patriotism from the American Administration during the electoral campaign, during the vote itself and after the announcement of the results of the presidential election so that the latter is truly democratic, free, transparent, credible and peaceful and that the expression of the American People is heard and respected as being primary sovereign.

Finally, ask the losers to recognize their failure and congratulate the winners notwithstanding any disputes to the contrary.

Under Vidimus
of the Secretary
General
